Policies, Procedures and Documents:

Book Buying Policy

The CIIS Inner Light Bookstore offers a book buyback for cash twice a year during the final two weeks of the Fall and Spring semesters. For textbooks that will be required the following semester, the bookstore pays 35-50% of the new price of the book, with the percentage depending on the title. Other books are included in the buyback on a case-by-case basis, with pricing depending on what the market rates.

For a price quote, email your list to bookstore@ciis.edu no earlier than the week prior to the buyback.

The CIIS Inner Light Bookstore occasionally buys back books outside of the official buyback periods, but only for store credit and the manager must be present for the transaction.
