## **Catalog Rights**

Students acquire “catalog rights” with respect to the requirements of a degree program and are expected to fulfill the program requirements in effect at the time of their entrance into the program. Those who fall out of active student status must reapply for admission and, if readmitted, will fall under the degree requirements in effect at the time of readmission. Catalog rights refer to the program requirements; by contrast, the policies in the most current catalog replace all previous ones and apply to students regardless of the year in which they were admitted.
