The Center for Psychedelic Therapies and Research Announces
2017 Psychedelic-Assisted Therapies and Research Certificate Program

- CIIS is now offering a certificate program in psychedelic therapies and research.
- The program will support the nascent renaissance in the contained, supported, and beneficial uses of psychedelics in research and therapeutic settings.
- It is currently offered to specific licensed professionals, chaplains and clergy.
- The program takes place over a course of 8 months with a break during the summer.

Dr. Janis Phelps, Director
Center for Psychedelic Therapies and Research
California Institute of Integral Studies
San Francisco, CA.
About the Program

This Certificate is housed in the new CIIS Center for Psychedelic Therapies and Research at CIIS Public Programs. The Center also provides diverse public education about psychedelic research and the use of psychedelics in psychotherapy from the past decades, as well as teaching on topics such as creativity enhancement, consciousness studies, comparative mysticism, well-being enrichment and harm reduction. Book readings and lectures by scholars of psychedelic medicines have been presented since 2015 and a film series is planned.

The Psychedelic-Assisted Therapies and Research Certificate serves a growing need for the training of skilled therapist researchers who will ideally seek advanced training for future FDA approved psychedelic-assisted and entactogen-assisted psychotherapy research. Research therapists in this field are sometimes termed sitters or guides. Enrollees will be specific licensed or licensable professionals in mental health and medical professions or eligible ordained/commissioned clergy and chaplains.

The roots of this Certificate are in the work of scholars and researchers on psychedelic-assisted psychotherapies, transpersonal psychology, consciousness studies, psychoanalysis, comparative mysticism, and anthropology. While this Certificate will emphasize the therapeutic models of psychedelic research, we will address the philosophy and theory from these other scholarly traditions as well. CIIS has an outstanding reputation of 50 years in graduate education that integrates consciousness studies, spirituality and psychology, including psychedelic studies.

Format and Development of the Certificate

The format of instruction and curriculum has been developed by Dr. Janis Phelps, Director of the Center for Psychedelic Therapies and Research, in collaboration with many clinicians and researchers in the field. As former Dean of Faculty for the School of Humanities and Social Sciences, Janis Phelps is well positioned to create a multidisciplinary team of teachers from across the United States and Canada. The certificate will be conducted during an eight month period. The schedule is comprised of six weekend workshops which includes two residential retreats. The curriculum entails 180 total hours of instruction, including 25 hours of online video instruction. This semi-hybrid program will be a benefit for trainees who come from regions beyond California.

The learning environment will be in the form of lectures, small group discussion, experiential learning (e.g., Holotropic Breathwork, role-play, guided imagery, expressive arts, journaling) and applied work in clinical and therapeutic settings. We will meet approximately every four weeks, except in the summer. Classes begin at the end of March, 2017. We meet until the middle of June, then have the summer off for volunteer work, and meet again from September through mid November, 2017. The first retreat in June at the Marconi Conference Center in Marshall, California is a version of the MAPS training program for therapist guides. The MAPS founding trainers, Dr. Michael Mithoefer and Annie Mithoefer, RN, will be our retreat's expert instructors. The second retreat in September at the IONS Earthise Center in Petaluma, CA. will include a session of Holotropic Breathwork with Diane Haug from the Grof Transpersonal Training.

Many psychiatrists, psychologists and therapists from Johns Hopkins University, New York University, UCLA, University of California, Berkeley, and the University of Wisconsin will be teaching in the program. Stanislav Grof, Ralph Metzner, CIIS faculty, and local experts will be in the certificate faculty.

Philosophy and Goals of the Certificate

Consistent with CIIS ideals, this certificate strives to encompass all aspects of learning: intellectual/didactic, the personal/experiential and applied (clinical and pastoral work). The research and therapy training will be done with processes embedded in self-reflection, community-building and
embodied ways of knowing and mentoring. The global wisdom traditions related to alterations of consciousness (meditation, yoga, fasting, solo wilderness retreats, healing methods, etc.) will play a role in the theoretical underpinnings of the curriculum, as well as being directly enacted as part of the personal/experiential aspect of the training. It is important to note that at no time will the program promote or require the use of psychedelic drugs in any manner. Students earning the Certificate will learn about the competencies required of therapist guides in federally approved medical treatment and psychedelic research.

Our purpose is gather and deepen the knowledge applicable to practices such as meditation, the use of psychedelic substances and breathwork. We train those who feel called to use that knowledge in the service of others. Our graduates will have a deeper understanding of these transformative practices and multiple skills with which to provide wise, therapeutic and loving support for people’s natural healing capacities.

**Institutional Partners and Acknowledgements**

Many renowned researchers and scholars have advised and supported the development of this certificate program at CIIS. They represent the prominent U.S. and Canadian research centers that are funded by the Heffter Research Institute (HRI), Multidisciplinary Association of Psychedelic Studies (MAPS), the Council on Spiritual Practices (CSP) and the Usona Institute.

We would like to publicly thank the following key thinkers and researchers for their significant contributions to the development of this Certificate. Thank you to Anthony Bossis and Jeffrey Guss (NYU); Karen Cooper, Nicholas Cozzi and Dan Muller (U. of Wisconsin); Rick Doblin, Michael Mithoefer and Annie Mithoefer (MAPS); George Goldsmith (Compass); Betsy Gordon, George Greer and David Nichols (Heffter); Roland Griffiths and William Richards (Johns Hopkins U.); Charles Grob (UCLA); Stanislav Grof; Robert Jesse (CSP and Usona); and Ralph Metzner.

Many of these researchers are featured in the influential *New Yorker* article, “The Trip Treatment” by Michael Pollan: [http://www.newyorker.com/magazine/2015/02/09/trip-treatment](http://www.newyorker.com/magazine/2015/02/09/trip-treatment).

We give a deeply felt and hearty acknowledgement especially to Dr. William Richards of Johns Hopkins University and to Robert Jesse of the Council on Spiritual Practices and Usona Institute for their tireless, consistently inspired and wise counsel on multiple levels of this Certificate.

![Image](image.jpg)

**Council of Advisors**

Many of these advisors will be teaching in the Certificate and some will be guest lecturers in evening public events at CIIS, co-sponsored by Public Programs and the Center for Psychedelic Therapies and Research. Many Bay Area experts in the field will be Certificate teachers as well.

*Anthony Bossis, PhD*

**Clinical Assistant Professor of Psychiatry, New York University School of Medicine; Director of Cancer and Palliative Care Research, New York University Psilocybin Cancer Project**
Karen M. Cooper, RN, MA
Usona Institute Senior Clinical Research Nurse, University of Wisconsin School of Pharmacy, Psilocybin Pharmacokinetic Study

Mary Cosimano, MSW
Study Coordinator, Department of Psychiatry and Behavioral Sciences, Johns Hopkins School of Medicine

Nicholas Cozzi, PhD
Professor of Pharmacology, U. of Wisconsin; Director, Neuropharmacology Laboratory, University of Wisconsin School of Medicine and Public Health; Fellow and Trustee, Alexander Shulgin Research Institute

Alicia Danforth, PhD
Researcher, Los Angeles Biomedical Research Institute, Harbor-University of California, Los Angeles Medical Center

Rick Doblin, PhD
Founder and Executive Director, Multidisciplinary Association for Psychedelic Studies

Donna Dryer, MD
Advisory Board Member and Primary Investigator, Multidisciplinary Association for Psychedelic Studies Canada

George Goldsmith, MA
Co-Founder, Compass; Consultant, Heffter Research Institute and Multidisciplinary Association for Psychedelic Studies

Elizabeth Gordon
Board Member, Heffter Research Institute; Trustee, California Institute of Integral Studies

George Greer, MD
Co-Founder, Medical Director, and Board Member, Heffter Research Institute; Distinguished Fellow, American Psychiatric Association; Past President, Psychiatric Medical Association of New Mexico

Roland Griffiths, PhD
Professor of Neuroscience and Psychiatry and Behavioral Sciences, Johns Hopkins University School of Medicine

Charles Grob, MD
Co-Founder of Heffter Research Institute; Professor of Psychiatry and Pediatrics, UCLA School of Medicine; Director and Chief of Div. of Child and Adolescent Psychiatry at Harbor-UCLA Medical Center

Stanislav Grof, MD, PhD
Professor Emeritus of Philosophy, Cosmology, and Consciousness, California Institute of Integral Studies; Founding President, International Transpersonal Association

Jeffrey Guss, MD
Clinical Assistant Professor of Psychiatry, New York University School of Medicine; Director of Psychedelic Therapy Training, New York University Psilocybin Cancer Project

Diane Haug, MA, LPCC
Senior Staff, Grof Transpersonal Training; Adjunct Faculty, Southwestern College, Academy for the Love of Learning and California Institute of Integral Studies

Robert Jesse
Convener, Council on Spiritual Practices; a Former Vice President, Oracle; Co-Investigator, Johns Hopkins University Psilocybin Research Project; Member of the Board, Usona Institute

Matthew Johnson, PhD
Professor of Psychiatry and Behavioral Sciences, Johns Hopkins University School of Medicine

Gabor Mate, MD
Author of In the Realm of Hungry Ghosts: Close Encounters with Addiction and When the Body Says No: The Cost of Hidden Stress
Dennis McKenna, PhD  
Co-founder, Director of Ethnopharmacology and Board Member, Heffter Research Institute; Professor, Center for Spirituality and Healing, University of Minnesota Academic Health Center

Ralph Metzner, PhD  
Co-founder and President, Green Earth Foundation; Professor Emeritus of Psychology, CIIS

Annie Mithoefer, BSN, RN  
Clinical Investigator for MDMA/PTSD Studies, Multidisciplinary Association for Psychedelic Studies

Michael Mithoefer, MD  
Clinical Investigator for MDMA/PTSD Studies, Multidisciplinary Association for Psychedelic Studies

Daniel Muller, MD, PhD  
Professor of Rheumatology, U. of Wisconsin School of Medicine and Public Health; Principle Investigator, Psilocybin Pharmacokinetic Study

David Nichols, PhD  
Co-Founder, President and Director of Pre-Clinical Research, Heffter Research Institute; Distinguished Professor Emeritus of Purdue University; Former Robert C. and Charlotte P. Anderson Chair of Pharmacology, Purdue University; Adjunct Professor, University of North Carolina, Chapel Hill

Janis Phelps, PhD  
Chair, Council of Advisors; Professor of East-West Psychology; Director of the Center for Psychedelic Therapies and Research

William Richards, STM, PhD  
Clinical Psychologist, Psychiatry and Behavioral Sciences, Johns Hopkins University School of Medicine

Stephen Ross, MD  
Professor of Psychiatry and Child and Adolescent Psychiatry, New York University School of Medicine; Principal Investigator, New York University Psilocybin Cancer Project; Clinical Director, New York University Langone Center of Excellence on Addiction; Director, New York University Addiction Psychiatry Fellowship

Ann Shulgin  
Alexander Shulgin Research Institute

Richard Yensen, PhD  
Advisory Board Member and Researcher, MAPS Canada; Founder and Director, Orenda Institute

**2017 Certificate Presenters May Include:**

- Dr. Anthony Bossis (NYU)
- Mary Cosimano, MSW (Johns Hopkins University)
- Dr. Nick Cozzi (University of Wisconsin)
- Dr. Alicia Danforth (UCLA)
- Dr. Rick Doblin (MAPS)
- Dr. Frank Echenhofer (CIIS)
- Dr. Amy Emerson (MAPS)
- George Goldsmith (Compass)
- Dr. George Greer (Heffter Co-founder)
- Dr. Charles Grob (UCLA)
- Dr. Stanislav Grof
- Dr. Jeffrey Guss (New York University)
- Diane Haug (Grof Transpersonal Training)
- Bob Jesse (Council on Spiritual Practices and Usona Institute)
- Dr. Gabor Mate
• Dr. Ralph Metzner, Green Earth Foundation
• Dr. Michael Mithoefer (MAPS, 4-day June training retreat)
• Annie Mithoefer (MAPS, 4-day June training retreat)
• Dr. David Nichols (Heffter Co-founder)
• Dr. Janis Phelps (CIIS)
• Dr. David Presti (UC Berkeley)
• Dr. William Richards (Johns Hopkins University)
• Dr. Berra Yazar-Klosinski (MAPS)

**Dates for Weekends and Retreat for the 2017 Certificate**

For a full list of classes, instructors and topics from the 2016 program, see [www.ciis.edu/cptr](http://www.ciis.edu/cptr).

March 24th, 25th and 26th, 2017  
Welcome weekend at CIIS

May 5th, 6th and 7th, 2017  
Weekend at CIIS

June 4th - 9th  
June Training Retreat:
with the Mithoefers of MAPS at Marconi Center, Marshall, CA.

**SUMMER BREAK**

September 15th, 16th and 17th  
September Training Retreat:
at IONS Earthrise Center, Petaluma, CA.

October 13th, 14th and 15th  
Weekend at CIIS

November 10th, 11th and 12th  
Weekend at CIIS and Graduation

**Daily Schedule for the Four Weekends at CIIS:**

- Fridays from 3 pm. to 7 pm.
- Saturdays from 10 am. to 5:30 pm. and 7 pm. to 9 pm.
- Sundays from 10 am. to 4 pm.

**Daily Schedules for the Two Residential Retreats:**

The June Retreat at the Marconi Center:
Begins Sunday, June 4th, at 1 pm. and ends on Friday, June 9th at 4 pm.

The September Retreat at the IONS Earthrise Center:
Begins Friday, September 15th at 1 pm. and ends on Sunday, September 17th at 5 pm.

These are the assigned dates for the certificate classes and the exact schedule with the teachers will be announced shortly.

**Testimonials from our Council of Advisors**

From Dr. William Richards, scholar, clinician and researcher at Johns Hopkins University:

"Accompanying the rebirth of psychedelic research and its many promising clinical, educational and religious applications, CIIS has stepped forward to design a program that not only offers techniques and information, but that also nurtures the psychological and spiritual maturation of future investigators and practitioners. It is an honor to be associated with CIIS and to contribute to the rich unfolding of this educational trajectory."
From Dr. Anthony Bossis, clinician, researcher and scholar at New York University:

"I am delighted to contribute to the Center for Psychedelic Therapies and Research at CIIS. The return of government approved scientific research into psilocybin and related compounds has significant potential for myriad scientific and clinical studies including the important treatment of existential and psycho-spiritual distress at the end of life. The re-emergence of this field will require serious multi-disciplinary academic centers to address the theoretical, research, and clinical domains of this work. With its history integrating psychology and spirituality, CIIS is uniquely and enormously qualified to meet this historic challenge."

Testimonials from our 2016 Trainees

From Dr. Robert M. Grant, MD, MPH, Professor, School of Medicine, UCSF:

This certificate program involves an extraordinary panel of pioneers whose knowledge and skills have grown over decades of research and practice. You learn from founders, current academic leaders from leading US medical schools, shamans, healers, and other visionaries. People with awesome knowledge and wisdom embrace and celebrate your experience as you become part of this work.

From Robert Krause, MSN, APRN-BC, Lecturer, Yale University, School of Nursing:

I have been so pleased with the program in psychedelic psychotherapy here at the California Institute of Integral Studies. The program has been of the highest quality of any educational programs I have participated. I am looking forward to putting this to use in upcoming research at Yale and when possible to integrate this into my private practice.

Who Should Apply?

The Certificate is designed for advanced professionals working in related therapeutic areas: licensed mental health clinicians, specific medical professionals and ordained/commissioned clergy and chaplains. Under specific circumstances, prospective medical and mental health profession students, who are not yet licensed, may apply if they have completed their coursework and 1,000 training hours of counseling and psychotherapy.

- Licensed Professional Clinical Counselors (LPCC)
- Marriage and Family Therapists
- Licensed Clinical Social Workers (LCSW)
- Registered Nurses
- Nurse Practitioners
- Naturopathic Doctors (ND)
- Ordained/Commissioned Clergy and Chaplains
- Physician Assistants
- Clinical and Counseling Psychologists
- Physicians and Psychiatrists
The Center for Psychedelic Therapies and Research especially encourages applications from individuals within the above list who: are military veterans; identify as people of color; and/or serve marginalized and under-represented populations. There is a special discount available for applicants of color: see Scholarship and Special Discounts section.

What Can I Do with this Certificate in Psychedelic-Assisted Therapies and Research?

Three primary opportunities could await you as a Certificate graduate:

Our Certificate graduates will have a strong foundation in skills and knowledge at a high standard for entry level training, which will ideally be finalized in advanced training at a psychedelic-assisted and/or entactogen-assisted psychotherapy research center affiliated with Usona, MAPS or HRI. We use the term "psychedelic" in this certificate summary to refer to both the classic psychedelics (LSD, psilocybin, peyote, ayahuasca, etc.) and to those drugs specifically called "entactogens" and also known as "empathogens" (MDMA, MDA, etc.). Over the next years in the Bay Area, we will be supporting the development of psychedelic-focused research initiatives with other local clinician researchers. Some of the Certificate graduates, pending pursuit of further HRI or MAPS advanced training, could be brought in to sit as study therapists in these ongoing research projects. This is dependent on the unfolding regulatory processes, the attainment of advanced training and the available number of therapist researcher positions.

Most experts in this field are predicting that in 2 to 3 years, in the midst of the next stage of research (phase 3), the leading psychedelic researchers will initiate applications for expanded access processes to the FDA for MDMA and psilocybin. Expanded access for investigational drugs is designed for medicines that have been determined by the FDA to have sufficient efficacy and baseline safety, but are not yet fully approved for the researched symptomologies. If approved by the FDA, psychiatrists and some physicians will be able to prescribe psilocybin and/or MDMA during the expanded access period for people with intractable conditions that have shown only partial response to traditional medications or for whom traditional medicines are contraindicated. In these cases, carefully trained therapist researchers will need to be present throughout the process as guides, work under supervision of physicians at approved sites, and conduct themselves within FDA treatment protocols. While the FDA’s response to the applications will not be known until then, the first permitted expanded access could be for people whose medical conditions meet FDA criteria for severe chronic PTSD or advanced cancer anxiety and distress. At CIIS we are working at the forefront of these potential opportunities. Join us!

Overviews of Expanded Access:

Read more about Expanded Access and Compassionate Use:
http://www.fda.gov/NewsEvents/PublicHealthFocus/ExpandedAccessCompassionateUse/default.htm

Details on FDA Guidelines:
http://www.ecfr.gov/cgi-bin/text-idx?SID=e859616b5a665bbceda13092d0ce1c063dandnode=sp21.5.312.1andrgn=div6

A third opportunity to be gained from the Certificate is an enhanced ability to serve people in our culture who have used psychedelics or other potent practices (e.g., breathwork) with insufficient support for the challenging experiences that sometimes occur and less than ideal support for the full unfolding of even positive experiences. With this training our graduates will be skilled in addressing psychological material that has arisen in clients and congregation members as a result of their personal psychedelic usage. People in our graduates' practices will be more likely to disclose and to ask for help in the integration of their psychedelically induced mystical, insightful and/or challenging experiences. Graduates might choose to make this integration work a specialization within their practices and communities.
**What are the Benefits of Attending the Certificate Program in Psychedelic-Assisted Therapies and Research?**

*By enrolling in this Certificate, you will:*

Have a unique opportunity to train with most of the prominent psychedelic researchers and therapist guides in the United States and Canada.

Become a member of the founding years of the CIIS Certificate Program.

Be mentored in monthly supervision with an expert clergy member, clinician and/or researcher in the field of psychedelic-assisted psychotherapies.

Develop your clinical and/or spiritual direction skills to an advanced level of expertise that utilizes: sacred knowledge, skills for creating the desired qualities of therapeutic relationship for this specialization, new skills in therapeutic presence, advanced psychedelic research design knowledge, and astute integration of protocols for set and setting with psychedelic substances.

Enjoy the support and conviviality of a cohort of clergy, therapists, chaplains and medical professionals with whom you might practice and/or conduct research in the future.

Learn to be present to the ways in which you can more deeply promote your own personal journey of transformation, well-being and connections with your own inner healer.

Join an engaged and healing classroom atmosphere that nurtures our human capacity for spiritual aliveness, well-being and community.

Expand your scope of practice within your profession to include skills and insights from the certification training that would allow you to more ably help people navigate through life's challenging and difficult states of consciousness.

Take advantage of applicable continuing education credits for this Certificate.
APPLICATION PROCESS

Eligible Applicants for the Certificate

Professionals, who hold advanced degrees, licensure, commissions or ordinations, may apply to the certificate program if they are trained in one of the following fields:

- Licensed Professional Clinical Counselor (LPCC)
- Marriage and Family Therapist
- Licensed Clinical Social Worker (LCSW)
- Registered Nurse
- Nurse Practitioner
- Naturopathic Doctor (ND)
- Ordained/Commissioned Clergy and Chaplains
- Physician Assistant
- Clinical and Counseling Psychologist
- Physician and Psychiatrist

Only those people with the above degrees and credentials are eligible to apply. For these professionals, preference will be given for applicants with a substantial background in psychological treatment and spiritual direction in these areas: behavioral medicine, chronic trauma and PTSD, palliative care, hospice, drug and alcohol rehabilitation, oncology, pain management and/or psychiatry.

Ordained clergy and commissioned/ordained chaplains are considered as applicants if they serve within the well-known world spiritual traditions. For ordained/commissioned clergy and chaplains, a M.Div., MA. or CPE with study in psychology and therapeutic skills is preferred. For medical professionals, clergy and chaplains, those applicants with substantial experience in providing psychotherapy, counseling, pastoral care and/or spiritual direction will be considered strong candidates for the certificate program.

Special Case Eligibility for Pre-licensed Professionals: Under certain circumstances, the mental health or medical professionals in the above list may be admitted prior to the completion of licensure requirements.

Clergy and chaplains need to be ordained or commissioned at the time of application. Eligible mental health and medical professionals who are not yet licensed will be considered on an individual basis only if they: a) have completed their degree coursework, b) have completed 1,000 or more supervised internship or residency clinical hours in which they conducted psychotherapy and counseling with individuals and c) have 2 or more years of work experience in mental health fields prior to their degree.

In all cases where such an applicant is unlicensed, the degree's coursework units and the 1,000 supervised hours of psychotherapy or counseling experience need to be completed prior to the start of the certificate program, March 25, 2017. To document the completion of the coursework, pre-licensed applicants will need to include a copy of their degree’s academic unit requirements shown in the university catalog.
Application Materials:

A completed application consists of the deposit and the following materials:

- Certificate Application Form.
- Background and Goal Statement.
- Resume or Curriculum Vitae.
- Credentialing Documents (for degrees, license, ordination or commission).
- Contact Hours and Supervision Form.
- Professional References.

Selected candidates will also be invited to interview with a faculty committee as a requirement of the next step in application for admission. This interview may be in person or via video conference. Only candidates who have turned in all of their application materials will be considered for the interview stage.

Certificate Application Form: Please complete and submit the Certificate Application form, which is on page 19 of this document.

Background and Goal Statement: In 2-3 pages, please describe your background and interest in this certificate in the following areas. Tell us anything pertinent regarding your personal development and progress through the stages of licensure, commissioning or ordination. Include descriptions of your training in therapy or spiritual direction. Share how you learned the following topics didactically and where you practiced these skills and knowledge: the understanding of psychological diagnoses; understanding of the therapeutic alliance; how to conduct a short term treatment; maintaining professional and pastoral boundaries; recognition of transference and countertransference; and confidentiality. Tell us how you integrate psychology and spirituality into your own practices of personal inner development. In addition, your goals are important to us. Please share with us what you hope to do with this certificate in your work in the world doing spiritual direction, psychotherapy, research and/or medical care.

Resume or Curriculum Vitae: Include a short resume or CV that outlines the history of your higher education, practica, internships, residencies, work in service to communities, spiritual direction assignments, fieldwork, as well as ordainment, commission and/or licensure status.

Credentialing Documents: Please send us a copy of: a) your relevant degree transcripts and b) a copy of your license or your ordination/commission papers. For pre-licensed applicants only: please also submit a copy of your university's degree and coursework unit requirements from the catalog.

Contact Hours and Supervision Form: This form documents your psychotherapy, counseling and spiritual direction hours during your training (if pre-licensed, complete Section II of form) and beyond the degree (if credentialed, complete Section I). Please review and submit the Contact Hours and Supervision Form. This form is on pages 20 - 22.
Professional References: Please submit the names and contact information of one or two (1-2) current or past clinical supervisors, spiritual guidance mentors, and/or professors who are willing to be a reference for you. It is optional to send 1 or 2 written letters of recommendation.

Application Deadline

Applications will open on Saturday, October 15, 2016. The deadline to turn in your application materials and deposit payment is Sunday, January 15, 2017. All application documents should be submitted via https://ciis.submittable.com/submit. Application materials should be submitted as PDF or Word files. For questions regarding online application submissions or deposit payments, please contact Kyle DeMedio at kdemedio@ciis.edu.

Fees

Registration Deposit: $200

Cost: $7,500 (cost includes full room and board for seven total nights of two residential retreats)

Early application discounts will be granted under the two following circumstances:

- $7,000 tuition cost ($500 discount) - Application completed (i.e. deposit and all application materials submitted and verified) by November 15, 2016
- $7,250 tuition cost ($250 discount) - Application completed (i.e. deposit and all application materials submitted and verified) by December 15, 2016

Continuing Education Credits

Up to 48 Continuing Education Units and hours are available (MFT, LPCC, LCSW, RN, NP, and Ph.D./PsyD).

Payment and Cancellation Fees

A deposit of $200 is due at the time of application. If you are not accepted, this fee will be refunded minus a $100 processing fee. Should you wish to cancel after the payment of the initial deposit, an amount of $100 will be deducted from your refund. This cancellation fee will apply whether or not you have been accepted to the program.

After payment of the initial deposit of $200, payment of the remaining balance due must be received by Wednesday, March 23, 2017, to secure your space in the program. An installment payment schedule is available on a limited basis for those who can show financial need. Please contact our office at 415.575.6175 for details.

If a student withdraws before Thursday, May 4, 2017, twenty-five percent of the tuition fee charged will be due. If a student withdraws before Friday, June 2, 2017, fifty percent of the tuition fee charged will be due. *The full tuition fee charged is due if a student withdraws after Friday, June 2, 2017.*

Refunds Granted after Refund Deadlines-Financial Petition Process

Students who believe they have extenuating circumstances warranting a credit, refund, or adjustment of the program cost may present a petition to Dr. Janis Phelps, Director of the Center for Psychedelic Therapies and Research. The petition must include an explanation of this circumstance along with supporting documentation. Please note, this documentation becomes property of CIIS and will not be returned. The
petition must be submitted within 90 calendar days of the last day of the program.

**Scholarships and Special Discounts**

We are pleased to be able to offer as many as ten needs-based Scholarship Awards for Certificate applicants. To apply, please send a 1-2 page statement indicating what your financial situation is and why you need assistance. A special discount of up to $2,500 is available for the first ten CIIS faculty, staff, clinical adjuncts, clinical supervisors, graduates and eligible students admitted to the Certificate program. The Center supports three applicants who identify as people of color with a 50% special discount of the tuition cost. Applicants may receive only one type of special discount and cannot also apply for the Scholarship.

The statement is due by **Wednesday, February 1, 2017**. Recipients will be notified by **Wednesday, March 1, 2017**. You may submit your statement along with your application materials.

---

**Curriculum of the Certificate**

**Certificate Learning Objectives**

**Goal 1:** To have a solid skill base for the assessment and development of research design strategies in light of contemporary psychedelic research priorities.

**Goal 2:** To understand the science and cross-cultural underpinnings behind the potential clinical efficacy of the use of psychedelics for the treatment of medical conditions, as well as for the enhancement of creativity and for personal development.

**Goal 3:** To understand foundational aspects of neuroscience, neuropharmacology and psychopharmacology pertaining to psychedelic medicines.
Goal 4: To develop specialized clinical knowledge and skill in guiding others through alternate states of consciousness in a clinical research setting.

Goal 5: To attain competence as a clinician with understanding and skills in the creation of appropriate set and settings for psychedelic-assisted psychotherapy research.

Supervision and Learning Assessments

Students will work with a clinical mentor who has experience in psychedelic-assisted and/or entactogen-assisted psychotherapy research or in related areas of clinical expertise. The mentor-supervisors will meet with the student once per month for professional mentoring.

During the entire program, trainees will also be supervised in their experiential practice sessions in guiding one another. Certificate students will also be supervised and trained during role-play sessions in dyadic training.

Students will write a journal that reflects their personal and professional learning during the process of the certificate program. They will be encouraged to hold the process of engagement with the curriculum as a time of personal transformation. Students will write monthly reaction papers as a method of making meaning of their experience. The trainees will write a final process paper that highlights their most significant learning in the certification program.

Curricular Modules of Study

Module 1 – Research Foundations (25 hours)

Renaissance in Research: Psychedelic-Assisted and Entactogen-Assisted Therapy (5 hours)

• Definitions of entactogens, psychedelics, hallucinogens, entheogens and empathogens
• Confluence of psychedelic exploration, Eastern and Western spirituality during the 1950s and 1960s
• Re-emergence of research in mid-80s and resurgence in 1990s
• Brief history of psilocybin, MDMA, LSD, ibogaine, ketamine and ayahuasca research
• Research on enhancement of creativity, meaning in life, and spiritual and mystical experiences

Anthropology of Shamanism (3 hours)

• Overview of shamanic uses of ayahuasca, ibogaine, peyote, San Pedro, salvia divinorum, mushrooms and other healing plants
• Ethnobotany and ecological insights
• Uses for betterment of community, renewal and connection to nature

Pharmacology and Neuroscience (8 hours)

• Neuroscience, brain structures and brain imagery
• Basic science of pharmacology and behavioral pharmacology
• Cell biology and biochemistry, as related to these medicines

Legal Issues and Regulatory Processes (3 hours)

• Brief history of the scheduling of these medicines
• Legal status of psychedelics and entactogens
• Regulatory processes: FDA, DEA, State Research Advisory Panels and Institutional Review Boards

14
Contemporary Clinical Research of Heffter Research Institute and MAPS  (3 hours)

- MDMA clinical outcomes for chronic PTSD and social anxiety in autistic adults
- Psilocybin outcome research on addictions, OCD and end-of-life anxiety
- LSD research in past 15 years and future prospects
- Plans for Phase 3 research and visions for expanded access programs

Ethical Values for Therapist Guides and Researchers  (3 hours)

- Ethics guidelines for therapists in research protocols
- I-Thou relationship with research volunteers and co-therapists
- Creation and maintenance of healthy boundaries; dual relationships in this type of work

Module 2 – Practices for Transformation of Consciousness  (15 hours)

Sacraments, Wisdom Traditions and Mystical Experiences  (10 hours)

- Traditions for expansion of consciousness: meditation, yoga, dance, ceremony and ritual, fasting, solo wilderness journeys, etc.
- Cross-cultural ceremonial use of psychedelics and plant medicines
- Sacraments, spiritual usage and mystical experiences
- Religious studies, entactogens and psychedelics
- Ego strength, ego transcendence and transformational processes

Psychedelics and Entactogens: Community, Spirituality and Wellness  (5 hours)

- Reparation, harm reduction and benefit enhancement: education and socio-cultural controversies
- Ecopsychology and plant medicine: traditional uses for individual and planetary health
- Quality of life enhancement: vibrant community and the betterment of well people
- Complementary medicine issues: nutrition and integrative approaches

Module 3 - Therapist Competencies and Therapeutic Processes  (35 hours)

Core Competencies and Healing Presence of Therapist Guide  (8 hours)

- Primary therapeutic competencies for this work
- Presence, empathy and non-directive support
- Methods and insights from psycholytic treatments
- Psychedelic therapeutic methods vs. traditional verbal or somatic therapies
- Chaplaincy and spiritual guidance insights
- Skills of an effective co-therapist guide; on-site clinical research training strategies

Meaning Making: Preparation  (8 hours)

- Role of preparation for optimal sessions
- Medical and psychological pre-assessments and contraindications
- Traditions of preparation: journaling, fasting, body work, and intention setting
- Therapeutic skills for the preparation process
- How personalities of the therapist guide and participant impact the process
Safety Issues and Support Skills  (5 hours)

• Risk and protective factors
• Contraindications for being a therapist guide and researcher
• Set and setting of sessions: safety, agreements, intentions and comfort
• Role of touch and non-verbal expression
• Handling of music and sound healing in sessions

Acute Distress: Challenging Processes and Adverse Effects  (6 hours)

• Documented in-session acute distress and challenging shifts of consciousness
• Medical and psychological emergency response protocols
• Interventions for distress and adverse effects of MDMA, psilocybin, LSD, etc.

Integration: Practices and Goals  (8 hours)

• Integration sessions: purpose and optimal outcomes
• Steps of integration as practiced by various therapists and researchers
• Integration skills: nuanced facilitating of the inner healer vs. orchestrating or imposing theoretical models
• Multicultural traditions for the integration of entactogen and psychedelic transformations into daily life
• Use of plant medicines for staying connected and responsive to the earth
• Relationship of self and community in mystical and spiritual meaning making

Module 4 - Experience of Guiding and Being Guided in Expanded States of Consciousness  (25 hours)

• Two Holotropic Breathwork weekends (with Stan Grof and Diane Haug)
• Guided imagery, expressive artwork and self-hypnosis
• Drumming and rattling inductions

• Optional experiences: Solo wilderness experience and/or sweat lodge
  Flotation tank or dance improvisation
  3-10 day meditation retreat or yoga retreat intensives
  Hakomi or other somatic-based intensives

Module 5 – En Vivo and Archival Instruction  (40 hours)

• Observation and discussion of specific MAPS and HRI session videos  (30 hours)
• Role-play practice in dyadic clinical scenarios  (10 hours)

Module 6 – Mentoring, Individual Supervision and Professional Development  (40 hours)

Life-Style Values for Therapists as Guides  (5 hours)

• Self-care for guides: transference, secondary trauma, exercise and counter-transference
• Living within opportunities and limits set by protocols and traditions
• Learning from mistakes and utilizing supervision well
• Personal journaling during certificate coursework
Mentoring and Group Supervision  (10 hours)

- Each student will work with a mentor from the list of clinically oriented or clergy members on the Council of Advisors or the Bay Area certificate teachers. These mentors will be advanced practitioners in their area of expertise.

- The mentors and trainees will use video conferencing or meet in person for 7 hours during the certificate program.

- This mentoring meeting will occur approximately once per month in small groups at the beginning of each weekend or retreat. Professional development discussions, assessments and confidential integration of learning will occur in this supervision.

- Personal therapy or spiritual guidance is encouraged for integrating the learning during the certificate work. The student may be asked to do so, if it is indicated for the student’s continued personal and professional development.

Applications of Learning  (25 hours)

- Students will volunteer for 25 hours or more in a setting with special populations, such as: hospice, suicide hotline, rehabilitation center, the hotline for the Spiritual Emergence Network, a Crisis Response Team or the ER, the Zendo or Full Circle Tea House at festivals, and/or serve as an adherence or fidelity rater for HRI or MAPS.

- Students may petition to replace some of their volunteer work with optional Module 4 experiences, if they have had ample experience in working with people in clinically difficult states of consciousness. This will be determined in dialogue with their supervisor and Janis Phelps.

- Our goal is to enhance the students’ appreciation for being of service and to experience a practice of their learning while in the certificate program. This may begin during the summer break.

Policy for Missed Classes

Please note that students must complete the entire curriculum in order to receive the certificate. We will meet at predetermined times for 8 months. Should a student miss 1 or 2 classes of an instructor, he or she will have the option of attending a 1-unit course at CIIS or presentation on this topic offered by the Center for Psychedelic Therapies and Research and Public Programs and Performances. (The presentation options can be taken at a 15-25% discount; the 1-unit classes will be at full additional cost). Or a student may be able to opt to do a special project at additional cost with their mentor-supervisor. In certain cases, the student may find a class elsewhere to fulfill the requirement. All make-up classes must be approved by Janis Phelps and the student's supervisor.

It is not possible to earn the certificate completely online because the program is part residential, part online. Students will attend 130 hours in classrooms at CIIS and at the two retreats. The remaining 50 hours in this semi-hybrid program are a combination of online learning and volunteer work. We will do everything we can to create solutions for unavoidable schedule conflicts for the weekend meetings. If a student needs to make-up more than 25 hours of the 180-hour Certificate, she or he will likely be asked to take a portion of the certificate hours with the 2018 cohort. In this case, the Certificate will then be conferred sometime in 2018, rather than in 2017. If you live outside the Bay Area, please contact Rachel Valenzuela-Ours at rvalenzuela-ours@ciis.edu to address the details of your particular situation.
The Center for Psychedelic Therapies and Research
Psychedelic-Assisted Therapies and Research Certificate Program

- Contact Public Programs at publicprograms@ciis.edu
- Contact Dr. Janis Phelps, Director of the Center for Psychedelic Therapies and Research at jphelps@ciis.edu
- Contact Rachel Valenzuela-Ours, Administrative Manager of the Center for Psychedelic Therapies and Research at rvalenzuela-ours@ciis.edu

Schedule of Information Sessions
Come find out more! Meet Dr. Janis Phelps, Director of the Center for Psychedelic Therapies and Research, and learn what this professional certificate program is all about. Ask questions, look around the campus or take advantage of online sessions, and hear about the need for the certificate in Psychedelic-Assisted Therapies and Research in the culture at large. Participate in informal conversation with some of the teachers and current students. Hear why we designed the certificate, who will benefit from it, and how you can be a part of the long-term vision. Learn how the certificate program can advance your progress toward your professional goals.

Location:
Namaste Hall, CIIS Main Building
1453 Mission Street, San Francisco CA 94103

*There is no charge for this event.

Wednesday, October 19, 2016 from 7 to 9 pm. (Namaste Hall)
Tuesday, October 25 from 9 to 10 am. (online)
Saturday, November 12 from 11:30 am. to 1 pm. (Room 307)
Wednesday, November 16 from 7 - 8:30 pm. (online)
Thursday, December 8 from 7 to 9 pm. (Room 306)
Saturday, December 14 (online)
Wednesday, January 12 from 7 - 8:30 pm. (Room TBA)

Please arrive several minutes before the beginning of the session.
For more information contact CIIS Public Programs & Performances (415) 575-6175 or publicprograms@ciis.edu.

About the Program
This Certificate in Psychedelic-Assisted Therapies and Research will serve a growing need for the training of licensed or ordained therapist researchers for future FDA-approved psychedelic-assisted and entactogen-assisted psychotherapy research, as well as therapeutic work during expanded access. Enrollees are licensable/licensed professionals in mental health, medicine, or ordained/commissioned members of the clergy and chaplains.
CERTIFICATE PROGRAM APPLICATION
Psychedelic-Assisted Therapies and Research

Certificate students are students taking Public Program and Performances Certificates at California Institute of Integral Studies (CIIS) without being enrolled in a degree program. Use this form to apply for the certificate in Psychedelic-Assisted Therapies and Research.

The following policies apply to all Certificate Program students:

1. Certificate Program student registration does not constitute admission to a CIIS academic program. Students registered in Certificate Programs are not eligible to earn a degree. Those seeking a degree must submit an Application for Admission to their program of interest.
2. Should a Certificate Program student later apply for and be admitted to a CIIS degree program, no credit hours taken as a Certificate Program student may apply toward the degree’s program.
3. Students registered in Certificate Program are not eligible for federal financial aid, CIIS Institute scholarships or CIIS student employment positions.

Enrollment Information

Mailing Address: __________________________________________________________________________________________
street city state zip country

Application Requirements

In addition to your application form and deposit, a background and goals statement, CV, contact hours and supervision form, and professional references are required to your complete application. Please check application details on the Certificate webpages at www.ciis.edu/cptr.

Student Statements, Payment, and Signature

Please initial each statement below to indicate that it is true and accurate:

_____ I am a U.S. citizen or permanent resident.
_____ I am an international student already in the U.S. on a J-1 or F-1 visa from another institution and am eligible to take courses at CIIS.
_____ The information I have provided is correct in all respects.
_____ I understand and agree to comply with all of the policies governing Certificate Program Students listed on this application.

Payment Method:
Please include a deposit of $200 (USD) for the Psychedelic-Assisted Therapies and Research Certificate. The deposit alone does not constitute acceptance. Should the program be full or you are not accepted, your deposit will be refunded minus a $100 processing fee. You may also include payment in full at this time if you wish.

- Check or Money Order (made out to “CIIS Public Programs and Performances”)
- Visa  ❑ MasterCard  Card Number: ____________________________ Exp. Date: ______________
  Security Code: __________ Authorized amount: ______________

Please submit this completed application form and documents to: publicprograms@ciis.edu or fax to 415.593.9042. Please check the CIIS Public Programs and Performances website at www.ciis.edu/publicprograms for final payment deadlines, financial assistance options, and cancellation policies. If you have any questions, please contact our office at 415.575.6175.

Certificate for Psychedelic-Assisted Therapies and Research

Contact Hours and Supervision Form

This form assists eligible applicants (from the list on page 9) in documenting the types of counseling, spiritual direction and clinical psychotherapy that have been done to date. Licensed and ordained/commissioned applicants need to complete Section I. For applicants who have completed their coursework, but have not finished the clinical training hours for licensure as a mental health or medical professional, please complete Section II.

Section I: For Licensed, Ordained and Commissioned Applicants Only

Please tell us the types and extent of your experience in counseling and pastoral care, mental status examinations, psychotherapy, assessment and receiving supervision. Fill in only Section I.

Section II: Only for Unlicensed Mental Health and Medical Professions Applicants

In addition to other required application materials, only professionals who are unlicensed LPCC, LCSW, LMFT, RN, Nurse Practitioner, Clinical or Counseling Psychology PhD/PsyD, PA, ND, or MD students need to complete this form and submit the following credential training documentation:

1. This Section II of the Contact Hours and Supervision Form
2. Your current degree transcript
3. A copy of your degree requirements from your university's catalog

Please fill in the information in the box below about your main clinical training placements. Add additional sites and supervisors on a separate piece of paper. Please fill out these 2 pages of Section II. Unlicensed applicants need to have completed their coursework and 1,000 hours of supervised clinical contact time with patients/clients before the beginning of the certificate on March 24, 2017.
