Guaranteed Access to Courses Required for Graduation and Fixed Tuition Rate

Beginning in the Fall 2009 semester, the Bachelor of Arts Completion Program guarantees that students enrolled full-time (12 to 18 units) will have access to all of the courses required to graduate. During a student's semesters of full-time enrollment, the tuition rates will be fixed and will not change.

This guarantee applies for a maximum of four semesters. The Bachelor of Arts Completion Program offers a one-year weekend format that provides qualified students the chance to complete in three semesters. Students can concentrate on their studies, being reassured of exactly what their degree will cost and when they will graduate.

The following conditions apply to this guarantee:

- The fixed tuition rate applies only up through the fourth semester. Should the student register for a fifth semester, the prevailing tuition rate will apply from that point on.
- The fixed tuition rate is rescinded if the student does not follow all other CIIS policies and deadlines.
- College credits earned from previous life or work experiences and awarded through the CIIS Prior Learning Seminar are not included in this offer. They will be charged a per-unit tuition rate.

This offer becomes void if the student fails to register in consecutive semesters. Students taking a leave of absence will be charged the prevailing tuition rate in the semester they return and in all subsequent semesters.
